ARTS'R'PUBLIC

Arts'R'Public

Euro-Mediterranean Laboratory for Arts in Public Spaces

Arts'R'Public is an Euro-Mediterranean laboratory whose aim is the creation and transmission of the arts in public spaces with a particular focus on involving new audiences in the artistic process.

Led by professionals in artistic creation in public spaces, Arts'R'Public will involve four artists from each partner city (Marseille, Hamburg, Genoa, Marrakech), and will follow a varied programme including phases of training, cultural transmission, group creation and development of personal artistic projects.

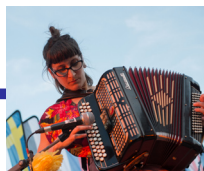

This project is based on a combined approach:

- Firstly, developing and supporting the careers and international networks of emerging artists.
- Secondly, involving young “amateurs” from priority areas of the cities in the artistic creation process.

FESTIVAL OF EUROPE

Each 9th of May is an opportunity to open a wide window to Europe in Marseille's public spaces, representative a point of convergence between Euro-Mediterranean citizens and their cultures. This is primarily to offer intercultural activities and information about the European institutions. in a friendly atmosphere where everyone feels involved.

UE FUNDS SUPPORT

Supporting cultural and creative actors on EU funding

Eurocircle supports the cultural and creative actors on the entire project formalization process, from the initial analysis of the structure to the identification of the European funding towards the formalization of an application and the organization of the kick off meeting.

The objective of this process is **to help and orientate** the project co-ordinators towards a progressive independence in their use of European funds.
